

Fall 2021 FPAW Planning Meeting

October 20, 2021

[10/20 11:37 AM] Matthias Steiner (Guest)

If you are aware of any other key conflicts, please bring them to our attention.

[10/20 11:38 AM] Le Jiang (Guest)

in another meeting now, will join back in 15mins

[10/20 11:39 AM] Phaneuf, Mark, Engineering & Air Safety (Guest)

Just confirming we're still good to host in DC area at ALPA Tyson's office at VALO Park building

[10/20 11:40 AM] Matthias Steiner (Guest)

Thanks, Mark, this is greatly appreciated. :-)

[10/20 12:06 PM] Kowalewski, Debbie

Joe, I am also wondering about the impact of US Notams (FICONS) will be going to the ICAO formatas I understand , in the near future.

[10/20 12:11 PM] Siegel, Joel M-CTR (FAA) (Guest)

I'm here lol

[10/20 12:37 PM] Matthias Steiner (Guest)

I would go for later (early May) because it will be warmer by then.

[10/20 12:38 PM] Siegel, Joel M-CTR (FAA) (Guest)

Can we vote twice?

[10/20 12:41 PM] Colavito, Jenny (FAA) (Guest)

You know that April 18 is Easter Monday. Just saying. Why did we not vote for the March weeks?

[10/20 12:57 PM] Lt Col Williams (AF/A3W) (Guest)

may not be much to discuss in the near term, but hypersonics and the Army looking at high altitude balloons are burgeoning topics. So simply something to keep in mind if not blocked off for discussion

[10/20 12:58 PM] Pokodner, Gary (FAA) (Guest)

I need to log off 1-1:30 PM for another meeting. I am fine with my panel assuming Daniel and Nancy are as well. I think this is a good panel for open discussion since this administration has global warming as a major area to address. I have related WTIC information to present, but WTIC related research is not enough for a full session.

[10/20 1:01 PM] Marilyn Pearson (Guest)

I'll join Joel and Colleen if you want a Pilot perspective on wx information

[10/20 1:01 PM] Siegel, Joel M-CTR (FAA) (Guest)

Thank you Marilyn!!

[10/20 1:02 PM] Kowalewski, Debbie

(yes)

[10/20 1:02 PM] Marilyn Pearson (Guest)
how about including uncrewed operations and remote pilots?

[10/20 1:03 PM] Dave Kochevar (NWS) (Guest)
what if we kept this broad and used "impacts for non-mets"?

[10/20 1:03 PM] Colleen Reiche (Guest)
Dave, great idea

[10/20 1:13 PM] Phaneuf, Mark, Engineering & Air Safety (Guest)
I have to jump off unexpectedly...I'm listed to support a topic, so no additional assignments for me when i'm not here. HaHa. I'll check back later

[10/20 2:01 PM] Dave Kochevar (NWS) (Guest)
veterans day is Nov 11 (a friday)

[10/20 2:03 PM] Marilyn Pearson (Guest)
I love Boulder!

[10/20 2:17 PM] Matthias Steiner (Guest)
Matt, it is Landolt

[10/20 2:21 PM] Colleen Reiche (Guest)
I have to drop....don't sign me up for too many other things :) Thanks All!

[10/20 2:27 PM] Dr. Brian Pettegrew
I like a research to operations topic

[10/20 2:28 PM] Dr. Brian Pettegrew
I'd like to add the limitations and challenges of an operational entity to maintain an operational capability

[10/20 2:36 PM] Bass, Randy (FAA) (Guest)
I need to drop off the meeting. Take care all

[10/20 2:39 PM] Ryan, Thomas E-CTR (FAA) (Guest)
My apologies but I have to head out.

[10/20 2:40 PM] Marilyn Pearson (Guest)
thanks all, gotta go...

[10/20 2:55 PM] Jay Scarano
@ LtCol Williams -- Jay Scarano -- jgs@mitre.org
