# NETWORK EVOLUTION – 2016 & BEYOND

Simplifying and strengthening  
our network

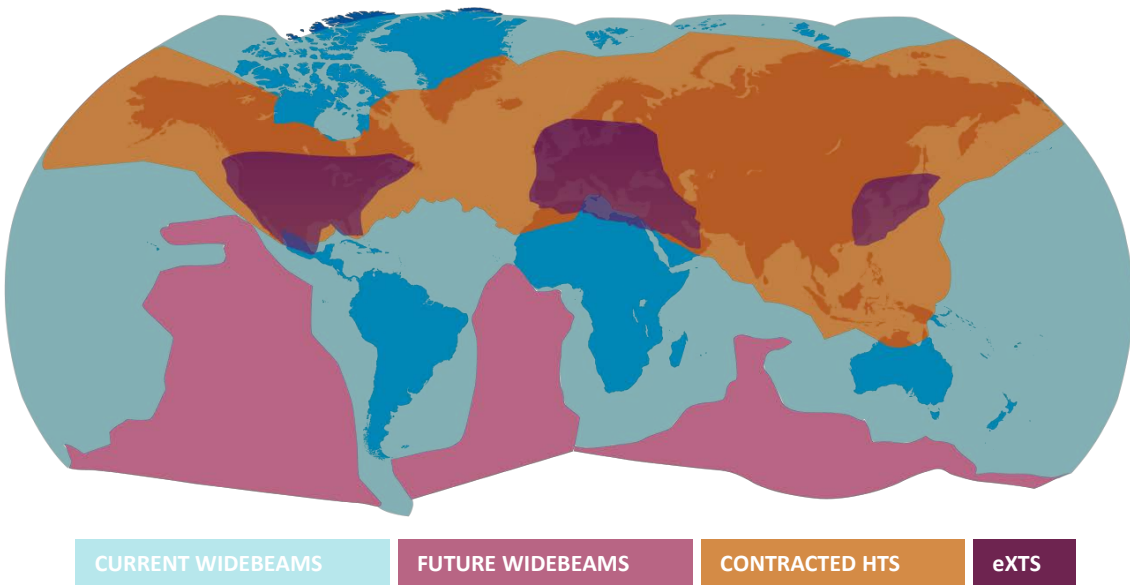

18 satellites

150 beams

20,000 – 40,000 MHz

Extremely powerful spot beams  
are layered over existing wide  
and HTS beams, covering 50%  
of all commercial air traffic

## TAMDAR

FlightLink Satcom

Wind  
Temperature  
Moisture (RH)  
Icing  
Turbulence (EDR)  
Pressure Alt  
GPS Alt

Each TAMDAR probe has **3 RH**  
**sensors** inside.

37 Observations

20

# FAA/NOAA TAMDAR STUDY RESULTS

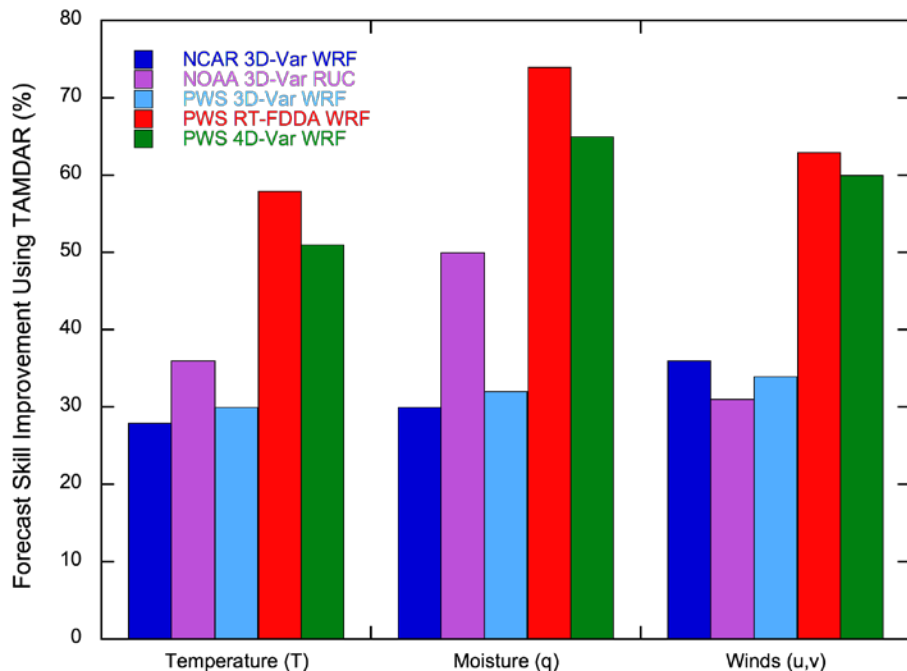

Chart of improvements in forecast skill of the experimental (with TAMDAR) over the control (without TAMDAR) All forecasts were verified using RAOBs as "truth"

NOAA's most optimized model for aircraft data is RUC

PWS 3D-Var WRF is essentially the same code as NCAR 3D-Var WRF

PWS RT-FDDA and 4D-Var WRF are best suited to utilize *asynoptic* observations

Moninger, W. R., S. G. Benjamin, B. D. Jamison, T. W. Schlatter, T. L. Smith, E. J. Szoke, 2010: Evaluation of Regional Aircraft Observations Using TAMDAR. *Wea. Forecasting*, **25**, 627–645.

Benjamin, S. G., B. D. Jamison, W. R. Moninger, S. R. Sahm, B. E. Schwartz, T. W. Schlatter, 2010: Relative Short-Range Forecast Impact from Aircraft, Profiler, Radiosonde, VAD, GPSPW, METAR, and Mesonet Observations via the RUC Hourly Assimilation Cycle. *Mon. Wea. Rev.*, **138**, 1319–1343.

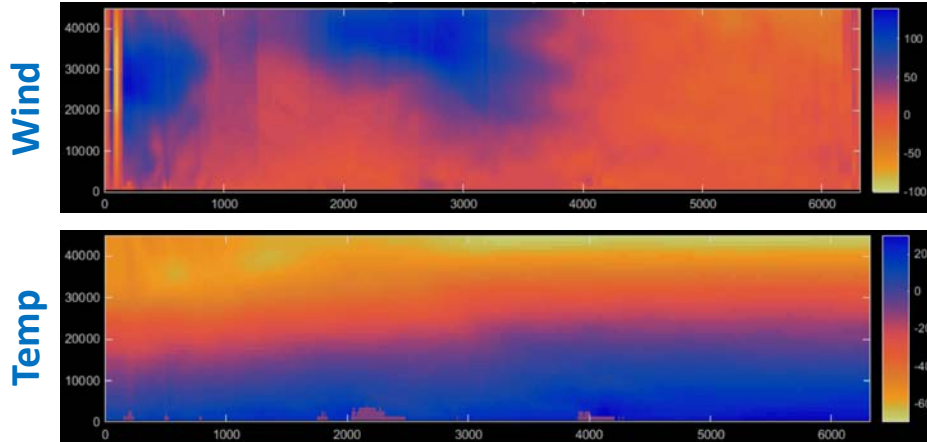

\*After corrections outlined in:

Jacobs, N. A., D. J. Mulally, and A. K. Anderson, 2014: Correction of Flux Valve–Based Heading for Improvement of Aircraft Wind Observations. *J. Atmos. Oceanic Technol.*, **31**, 1733–1747.

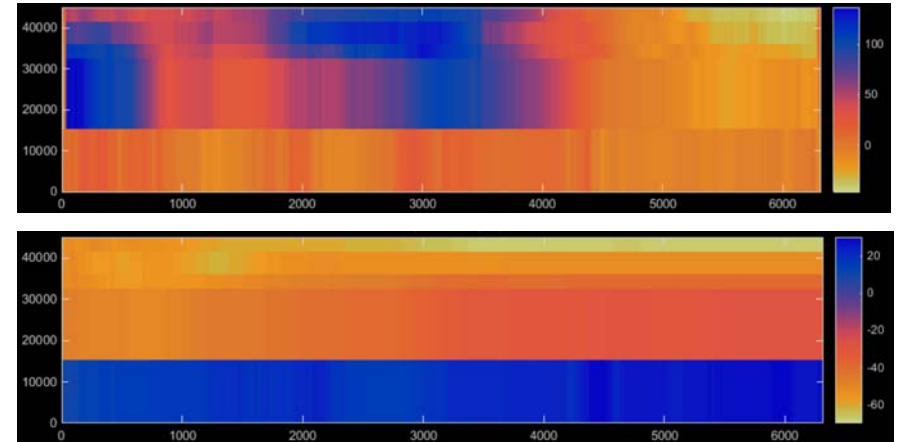

## Hybrid 4D-EnVar Deterministic Global Model Output on Native Flight Levels (1000 ft)

Panasonic Global

NCEP Global

## Reduction in CO2 emission and fuel costs

## Fuel Savings & Reduction in CO<sub>2</sub> Emission

Powered by TAMDAR, FlightLink,  
OptiClimb and the PWS forecast

Potential for annual benefit across a  
20 aircraft, mixed fleet:

**\$1.4M USD/Year** of fuel savings  
**6,205 metric tons of CO<sub>2</sub>/year**  
emissions reduction

\*Based on an average fuel cost of US \$2.00 per gallon
