Plan Structure

Narrative Chapters: Plain English, Status Overviews

Appendices: More detailed technical information, Specific planning goals

Narrative Chapters

- NextGen Today
- NextGen Ahead
- Operational Vision

Appendix A

NextGen Investments for Operators and Airports

- ✦ Guidance
- ✦ Schedule
- ✦ Targeted Users
- ✦ Targeted Areas
- ✦ Maturity

Appendix B

Delivering NextGen

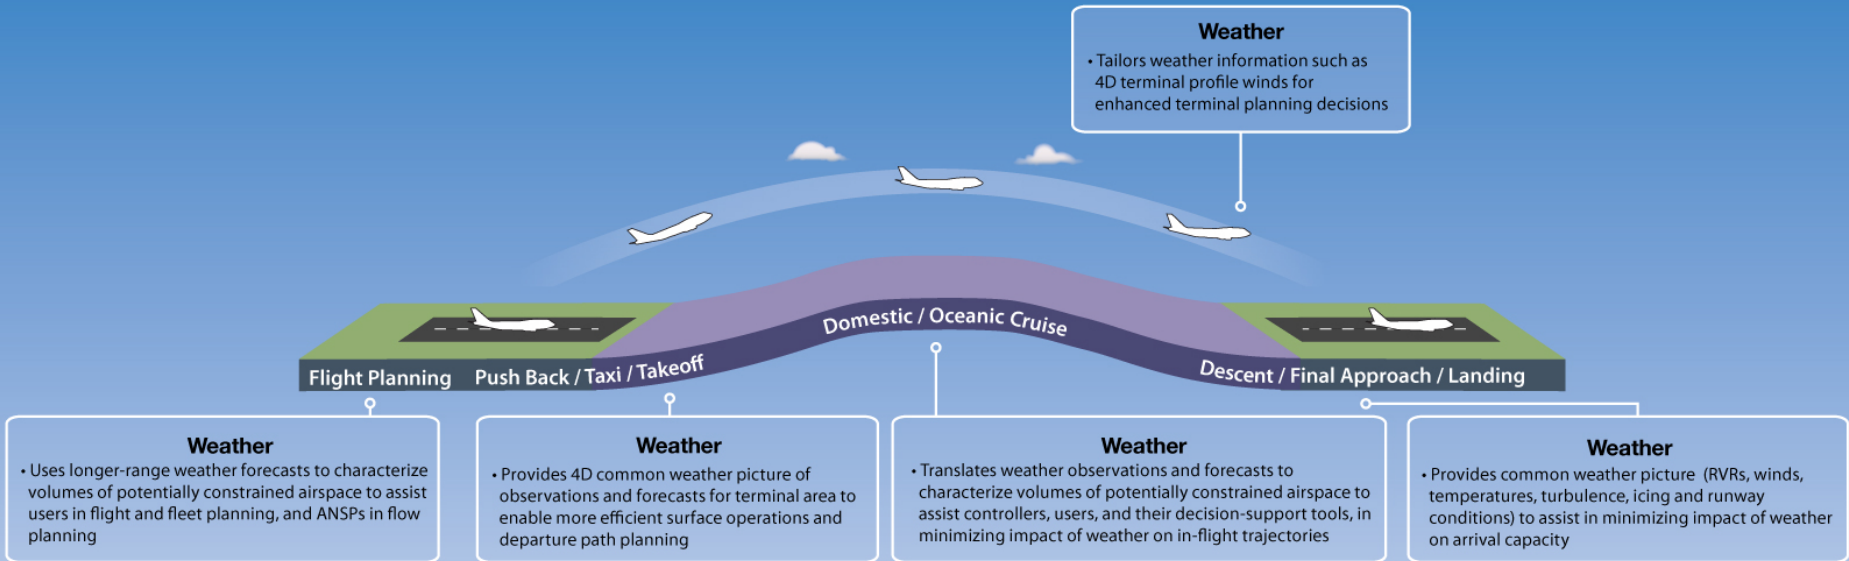

Implementation/ Supporting Portfolios

- ✦ Timelines
- ✦ Operational Improvement Descriptions
- ✦ Selected Work Activities

Weather

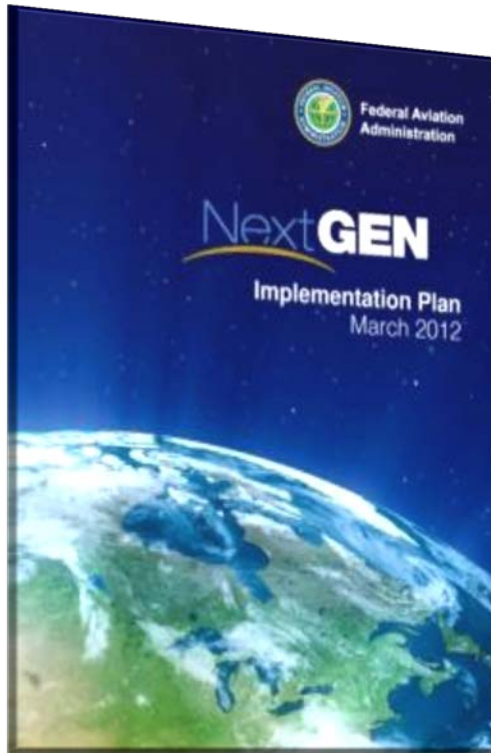

Appendix B: Common Services & Infrastructure Portfolio

Maximizing the Opportunities in Houston

The area around Houston claims some of the busiest air space in the country. Not only does the region serve as a major hub for airlines on domestic and international flights, but it also operates hundreds of helicopter flights into and out of the Gulf of Mexico every day.

Airports

Even as we bring new airports online to NextGen initiatives, there are many airports already exploiting NextGen procedures. Here is the progress for the 30 targeted airports.

Metroplexes

We are designing hubs in the sky that can move traffic more efficiently through crowded regions. Explore the progress at the 21 targeted areas of the country.

Performance Comparisons

Compare two different airports or metroplexes across the country to see performance-based indicators side by side.
