

BIOGRAPHY

MR. DAVID G. BIEGER

Mr. David G. Bieger serves as the Meteorologist-in-Charge of the National Aviation Meteorologists located at the Federal Aviation Administration's Air Traffic Control System Command Center (ATCSCC) in Warrenton, Virginia. Mr. Bieger leads a nationally-focused staff engaged in ongoing aviation weather impact-based decision support services and support programs for numerous cross-government agencies, as well as commercial and general aviation weather stakeholders. In this role, Mr. Bieger ensures the provision of timely, relevant, accurate and consistent environmental intelligence to a wide spectrum of aviation operations. Mr. Bieger previously served as the Meteorologist-in-Charge of the Seattle Center Weather Service Unit (CWSU) located at the FAA's Air Route Traffic Control Center in Auburn, Washington.

Prior to joining the National Weather Service (NWS) in 2015, Mr. Bieger served as a commissioned officer in the United States Air Force. During that time he held numerous leadership positions such as launch weather officer, flight commander, staff meteorologist, contingency planner, and squadron operations officer.
