

Dispatcher Weather Education and Training

Brian Myszowski
Flight Superintendent – Chief Instructor
Delta Air Lines

Meteorology Training at Delta Air Lines

- ④ Recurrent Training
- ④ International Initial Training
- ④ Part 65 Dispatch Training
- ④ Delta Initial Dispatch Training

Recurrent Training

Refresher weather training

- ④ Review weather hazards for the upcoming season
- ④ Review policies and procedures associated with weather hazards
- ④ Climatology and significant weather for any new airports served

International Initial Training

Introduction to international weather

- ④ International METARs and TAFs
- ④ Global wind patterns
- ④ Southern hemisphere weather
- ④ Global weather hazards
- ④ Climatology of international cities

Part 65 Dispatch Training

Weather required by FAA regulation

- ④ 56 hours of instruction
- ④ Basic meteorology – main causes of weather
- ④ Identify and explain aviation weather hazards
- ④ Try to make the curriculum entertaining

Delta Initial Dispatch Training

Introduction to Delta dispatch

- ① Review of basic meteorology (Part 65 topics)
- ① Explain the role and responsibilities of Delta Meteorology
- ① Describe how best to utilize Delta Meteorology
- ① Explain how weather applications are used for dispatch

General Observations

Things that drive me crazy

- ① “I have this great app” (or website)
An attempt to find and easy answer (when better information is available)
- ② Understanding vs. Knowledge
Able to memorize information but unable to apply the information
